Yalp Memo Interactive play pillars

DESCRIPTION

The Yalp Memo is an interactive playset that consists of seven play pillars. All posts have a 360 degrees polycarbonate touch screen, including vivid LED lights that also react to touch (even when players wear gloves). All pillars individually have an audio speaker system. The pillars are connected and controlled through a central master game pillar. Next to being an exciting and fun playset that gives plenty of physical challenge, Memo also is developed as a playful learning tool. The balanced mix between fun and physical challenge is achieved through fun and sports games. Educational aspects in the games provide learning features. Vivid LED lights and audio speakers give players feedback and encouragement on the performance of the players. The product has a wireless internet connection for updates, product monitoring, and so that the customer can change product settings by using the online My Yalp platform. The Memo is specifically designed for outdoor use (suitable for indoor use).

TECHNICAL SPECIFICATIONS

Dimensions game post

0.33 x 0.33 x 1.15m (1.1 x 1.1 x 3,8ft)

Dimensions floor

Ø 8,0 (26,25 ft)

Safety zone

Ø 9,7 (31,82 ft)

Dimensions boarding

13,20 x 13,20 x 0,80 m (L x B x H) (43,31 x 43,31 x 2,6 ft)

Basic construction game posts

SS316 (stainless steel), blasted and oiled, RAL9005.

Speaker caps

SS304 (stainless steel), powder-coated, RAL5015

Post caps

PE, Available in RAL5015, 3020, 6026, 9005

MINIMUM REQUIREMENTS

Button

Start games with a heavy-duty button for outdoor use.

EAO button, model 56, 10 LEDs.

Internet connection

Wireless 3G/4G on board for continuous data output of statistics (no use of UTP-cables)

The general terms of Lappset Yalp B.V. deposited at the chamber of commerce apply to all our transactions.

My Yalp (Online web-tool)

Online play statistics of the product are visible on My Yalp, sent by live data feed using the 3G/4G wireless internet connection (e.g., which games are played, how many play hours/day).

Remote control

Features of the Product can be remotely controlled, e.g. on/ off timer, volume regulation, on/off settings light module, game and language settings, by 3G/4G internet connection

Games

My Yalp users can select the product games in different languages. Several games are pre-installed, and many other games are available on the support web-tool. Games are suitable for single or multiplayer and with or without competition. The games have several levels to improve and challenge the players.

Electronic input, output

Input 230V, output 12 V DC / 15 V DC
